

EMPIRE

by  PALAZZO®

Wall Tile EMPIRE white structured 30 x 60 | Porcelain stoneware EMPIRE nero 45 x 90

EMPIRE

by  PALAZZO®

Modest elegance

PALAZZO is an established, reliable, modern, and design-oriented quality ceramic tile brand. EMPIRE, the new collection by PALAZZO, presents tiles that emit an elegant, glossy effect in certain lighting conditions thanks to their discreet lustre finish.

The new collection includes warm and cool colours in a wide range of formats to meet all your design wishes. The surfaces of the rectified floor tiles harmonise with the matching wall tiles – creating a concept that gives your rooms a touch of class and style.

EMPIRE BIANCO

Mosaic is becoming ever more popular – the small-scale all-rounders are decorative, practical, and wonderfully unique.

Furthermore, the versatile mosaic decor in the EMPIRE by PALAZZO collection stands out due to the effective interplay of clear lines and sophisticated, iridescent colour nuances.

EMPIRE BEIGE

EMPIRE NERO

EMPIRE by PALAZZO is a collection for fans of understated design: Stylish colour variants in shades of sand and grey are discreetly accented by the elegant lustre finish. The wall and floor concept has even more to offer than tiles in finely-tuned colours and styles: two versatile types of mosaic that offer infinite combinations. EMPIRE by PALAZZO – the collection suitable for bathrooms, living spaces, and kitchens.

EMPIRE GRIGIO

Exquisite designs, combined with an intimate atmosphere, allow for plenty of creative freedom. Compared to other surface materials, glazed porcelain tiles are particularly resistant and easy to clean, making them far more than just a visual highlight for your home.

EMPIRE 30 x 60

The tactile surface is particularly expressive and gives the tiles a classy and mature look. The design is luxuriously underlined by the attractive lustre finish, thereby rounding off the filigree style of this collection.

In addition, the wall and floor concept far exceeds the requirements of the DIN standard.

Product advantages.

Few other materials combine so many advantages – from its hygienic to its biological properties.

The advantages at a glance:

- robust
- durable
- lightfast
- antistatic
- emission-neutral
- allergy friendly
- easy to clean
- insulating
- passively cooling in summer

Environmental advantages.

Sustainability is a top priority in the production of EMPIRE tiles by PALAZZO. That is why we use renewable raw materials, resource-sparing production procedures, and short transportation distances. Due to the high insulation and thermal conductivity of the EMPIRE tiles by PALAZZO, they provide an ideal surface for underfloor heating. The radiant heat has a pleasant effect and reduces heating costs.

Health advantages.

More and more people are suffering from dust mite allergies. EMPIRE tiles by PALAZZO offer relief: allergenic substances can neither develop nor find a place to nest, as the tiles are fired at high temperatures during production and have a non-porous surface. EMPIRE tiles by PALAZZO are therefore excellently suited for rooms with higher humidity, such as kitchens, bathrooms, and toilets. They are not only extraordinarily beautiful, but also uniquely healthy.
