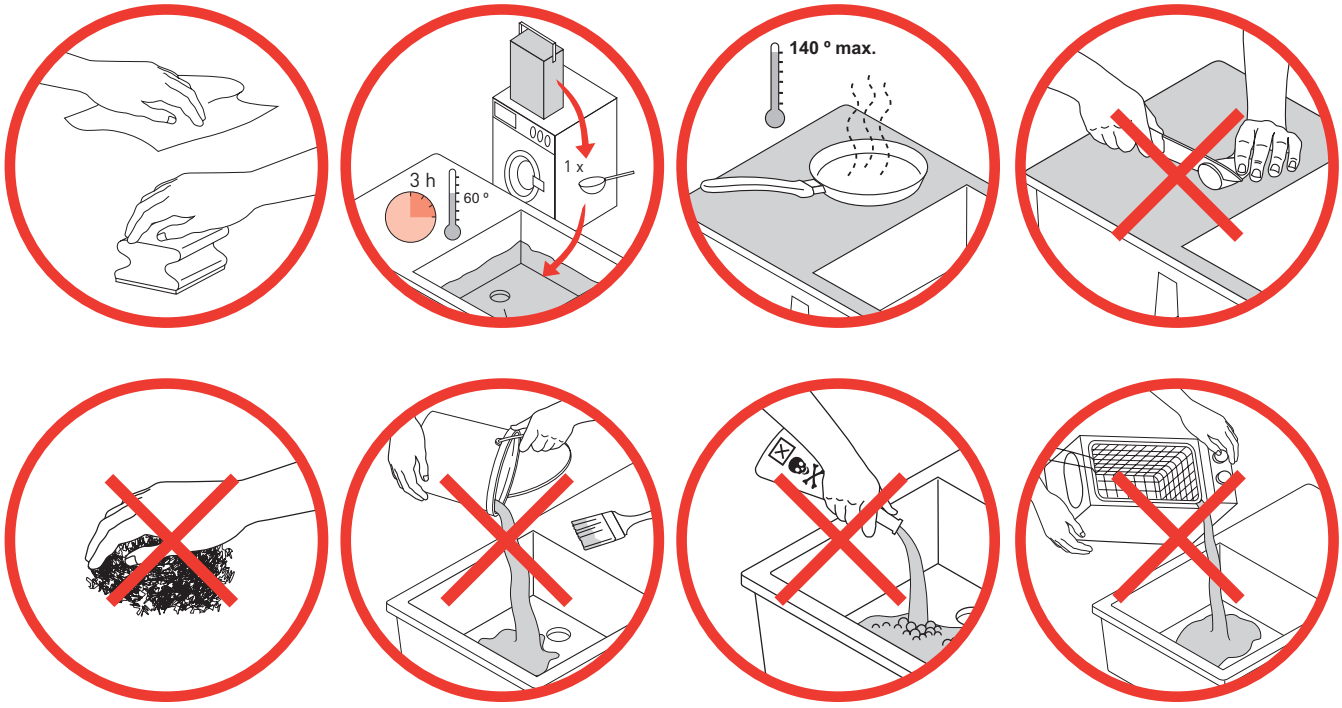
LEY DE ENVASES

PACKAGING LAW

LOI SUR L'EMBALLAGE



S Dando cumplimiento a la **Ley 11/1997 de 24 de abril, de envases y residuos de envases (BOE nº 99 de 25.04.97)**, informamos al consumidor que el responsable de la entrega del residuo del envase usado para su correcta gestión ambiental es el poseedor final del mismo.

E In compliance with the Spanish **law 11/1997 of April 24th on packaging and packaging disposal (BOE No. 99 of April 25th 1997),** we inform our clients that the end consumer is responsible of using the appropriate containers for garbage disposal.

F En conformité avec la loi espagnole **11/1997 du 24 avril sur l'emballage et les déchets d'emballages (BOE nº 99 du 25 avril 1997),** nous informons les consommateurs que la livraison et la correcte gestion environnementale des déchets du récipient utilisé est sous leur propre responsabilité.

GARANTÍA
GUARANTEE
GARANTIE

S

Apreciado cliente,

Los fregaderos ATRON® están compuestos de cuarzo y resinas de componente acrílico. Solamente utilizamos materiales que cumplen con la Directiva 2002/72/CE de la Comisión Europea relativa a la seguridad alimentaria. En Atron® trabajamos para ofrecer un producto coherente y uniforme. Nuestros fregaderos han sido sometidos a estrictos controles de calidad, así como a frecuentes análisis de laboratorio, efectuados por el Instituto de Tecnología Cerámica de Castelló.

Atron Línea Europa SL garantiza sus productos en referencia a los defectos de fabricación, según la Ley 23/2003 de Garantías de Venta de Bienes de Consumo. Dicha garantía es de 2 años.

El documento de garantía será la factura que le haya emitido la entidad suministradora del producto.

La garantía se limitará única y exclusivamente a la reposición sin cargo del material defectuoso, previo examen y aceptación del posible defecto de fabricación por parte de nuestro Departamento Técnico así como por parte del Departamento Comercial. No existirá bajo ningún concepto derecho al reembolso de los gastos de instalación u otros gastos asociados.

La garantía excluye cualquier defecto que sea consecuencia de una instalación o manipulación incorrectas.

Gracias por escoger un producto ATRON®.

E

Dear Customer,

ATRON® sinks are made of quartz and acrylic resins. We only use materials that comply with the EU Commission Directive 2002/72/EC on food security. Atron® strives tooffer a product that is consistent and uniform. Our sinks are subject to strict quality controls, as well as frequent laboratory analyses conducted by the Institute of Ceramic Technology (Castelló, Spain).

Atron Línea Europa SL guarantees its products in terms of manufacturing defects according to the Spanish law 23/2003 on guarantees associated to consumer goods. This is a 2-year guarantee.

The guarantee document is the invoice issued by the supplier.

The guarantee covers exclusively the free-of-charge replacement in case of defective material, whenever our Technical and Commercial Departments have verified and accepted the existance of faulty manufacture. By no means the expenses related or associated to installation will be covered.

The guarantee excludes any defects resulting from improper installation or handling.

Thank you for choosing an ATRON® product.

F

Cher client,

Les éviers Atron® sont fabriqués en utilisant du quartz et des résines à composante acrylique. Nous n'utilisons que des matériaux qui répondent à la Directive 2002/72/CE de la Commission Européenne relative à la sécurité alimentaire. Chez Atron® nous travaillons pour offrir un produit cohérent et uniforme. Nos éviers ont été soumis à des contrôles de qualité stricts, ainsi que des analyses de laboratoire fréquentes menées par l'Institut de Technologie Céramique (Castelló, Espagne).

Atron Línea Europa SL garantit ses produits contre les défauts de fabrication, conformément à la loi 23/2003 sur les garanties en cas de vente de biens de consommation. Cette garantie est de 2 ans.

Le document de garantie sera la facture émise par l'entité fournisseuse du produit.

La garantie se limite uniquement au remplacement gratuit des pièces défectueuses après l'examen et l'acceptation du possible défaut de fabrication de la part de notre Service technique, ainsi que de celle du Service commercial. Il n'y aura, en aucun cas, droit au remboursement du coût de l'installation ou d'autres associés.

La garantie exclut les défauts résultant d'une incorrecte installation ou une mauvaise manipulation.

Merci d'avoir choisi un produit ATRON®.

CERTIFICACIÓN MARCADO CE - SISTEMA TIPO 4

La empresa **ATRON LINEA EUROPA, S.L.**, ubicada en crta. de Vic N141-C Km. 29 – Pol. Ind. Pla Romaní – 08180 Moià (Barcelona), número de teléfono 93 830 00 30, número de fax 93 830 14 58, con N.I.F.: B-62235411 y en su representación D. Bernat González Guasch, como Gerente:

Declara bajo su responsabilidad la conformidad del producto: **FREGADERO SINTÉTICO DE COCINA** con las disposiciones de la Directiva 89/106/CEE sobre Marcado CE de Productos de Construcción.

Empleando un Sistema de Evaluación de la Conformidad sistema Tipo 4 tras el cumplimiento de los requisitos de la norma: **UNE-EN 13310**

con las especificaciones y referencias normativas de los métodos de ensayo realizados satisfactoriamente: drenaje de agua (apdo.5.2), resistencia al calor seco (apdo.5.3), resistencia a los cambios de temperatura (apdo.5.4), resistencia contra los agentes químicos y colorantes (apdo.5.5), estabilidad de la carga (apdo.5.8) y determinación del caudal del rebosadero (apdo.5.9).

E

CE MARKING CERTIFICATE – TYPE 4 PROCEDURE

We, **ATRON LINEA EUROPA, S.L.**, located at Carretera de Vic N141-C Km. 29 Pol. Ind. Pla Romaní – 08180 Moià (Barcelona), telephone number +34 93 830 00 30, fax number +34 93 830 14 58, tax identification number (NIF): B-62235411, represented by Mr Bernat González Guasch as the General Manager:

declare under our sole responsibility that the product **SINTETIC KITCHEN SINK** to which this declaration relates is in conformity with the provisions of Directive 89/106/EEC on CE Marking of construction products.

Applying a Type 4 Conformity Assessment Procedure after following the provisions of the standard **UNE-EN 13310**

with the specifications and legal references of the successfully passed test methods: water drainage (section 5.2), dry heat resistance (section 5.3), temperature change resistance (section 5.4), resistance to chemical and coloring agents (section 5.5), load stability test (section 5.8), and overflow capacity definition (section 5.9).
